## TOTTEN COMES AGAIN.

In answer to an article of May 4th I chance to read from the columns of the Mountain Echo signed Mark Tapley.

You all are aware of where the Echo is published, but I am forced to explain more fully, where. If you remember the Echo is published where W. S. Taylor contemplated making his headquarters after the assassination of Gov. William Goebel and where he, W. S. Taylor, sent his rump Legislature without a quorum for at least two weeks, finding they were powerless at the end of time above stated, they sneaked back to Frankfort in the night ashamed to even let civil people see their faces as they hid the mountains goodbye.

I will say if it was any other time besides the critical one of the present I should not stoop to opening a discussion with Raccoon Hollow, of Laurel county, it is so flimsy I hardly deem it worthy of notice. Now in regard to soiling my spotless garments with the blood of William Goebel, one of the best men in the State.

William Goebel did not shrink from the jaws of his State when he killed his man, he was tried by the law and acquitted. Can you say as much for your assassins, who are now in jail without bail, while many are in hiding who will soon be locked up with their brothers in assassination? You say I have had intentions of leaving the party for years, but wanted to smash it before I left it. It is already smashed and by the time your next election comes off there will not be enough left of that party to make a greasy spot, and many who are at liberty today will be learning a new trade inside the walls of the penitentiary.

You say the party which loses my numerical strength will gain in mental and moral qualities. I will leave the charge to my friends and not to protectors of assassins. Now in regard to having your grand old party purged to the extent of my loss, you will find out how deeply it has been purged next November when William J. Bryan will carry Kentucky by 30,000 majority. Gov. Beckham for re-election by still more. For those of your party who term themselves christians can't conscientiously vote to uphold assassination.

Now in regard to exchanging me for anti-Goebel democrats, you had better try and save all you can from the rope and the pen. I am of the opinion that the governor of the State will be forced to call the Legislature together and pass a bill to enlarge the penitentiary sufficient to hold those who will beset there for the murder of Gov. Goebel and those conspirators to murder.

I want to show you that I never have been much of a republican. I cast my vote for Samuel J. Tilden, who was honestly elected and his election was stolen by the republicans. I cast my vote twice for M. J. Durham for Congress against W. O. Bradley. I cast my vote for James B. McCreary for governor against a republican. I cast my vote for Judge R. G. Williams against the republican nominee, who was defeated by 200 votes and who overcame a republican majority of over 650. I cast my vote for Hon. G. G. Gilbert, who defeated George M. Davison by over 800 votes. I also cast my vote for William Goebel and will, if I live to see the day in November, to cast my vote for Gov. Beckham, W. J. Bryan and G. G. Gilbert.

In conclusion I wish to ask of my friend not to sign any fictitious names, but be a nice little man and sign in full.

DAVID R. TOTTEN.

## POLITICIANS AND POLITICS.

The Indiana State democratic convention has been called to meet at Indianapolis June 6. There will be 1,527 delegates.

On the 7th and 8th you can go to Cincinnati on the Q. & C. and return for one fare. The People's Party convention meets there on the 9th.

The House subcommittee on elections has decided to take no further action in the Davison-Gilbert contest case at the present session of Congress.

Death is decimating the democratic majority in the General Assembly. The death of Senator Hill, of Newport, makes the third to die since the body adjourned.

Work on the Baptist church at Liberty is progressing rapidly, Mr. G. R. Cowden, of that place, informs us. The Methodists have also decided to build a house of worship and have bought ground from Judge Beiden, he says.

This is the kind of mention the Kentucky State Democrat gave Taylor when he went fishing last week: "Hog Jaw" has gone to Penrod on a fishing expedition. It is a cinch he won't have to dig bait, as suckers are powerful fond of pork.

## WYOMING.

FRANK HOLTZCLAW TELLS OF ITS ADVANTAGES.

EOETHEN, WYO.—When I left Stanford for the West I promised so many to write to them that I will not be able to carry out my promise in full. But will through the greatest advertising medium in the State tell you a few facts about Wyoming and Dakota. This country is settling up rapidly and I can see nothing to prevent it from being a good country to live in. There is a vast amount of land yet in this State and Dakota ready for any one, who has nerve enough to live on it. There are homes and fortunes here for a great many people. The country will soon be dotted over with towns and villages. I have been told that a man, who owns a part of the land where Spearfish is now located, left his claim twice before he was satisfied to settle permanently. After locating here he saw another claim a few miles away he liked better and moved to it. But another man had laid claim to it and persuaded our man to come back to his claim, but he was not satisfied and in a few days returned to try his luck again on the claim of his choice. This time he was assured that it would not be healthy for him to stay there and he came back to his old claim which is now worth \$500 per acre. Such a life, but it has never been such with me. This man was driven into a fortune.

I would not make the impression on the minds of your readers that there is a fortune here for everybody, but I would impress them with the fact that there are 100 acres of land here for any one that is willing to endure the hardships of a frontier life. I think this is a very healthy climate, more especially for pulmonary troubles. The altitude is about 4,000 feet above the sea level and the rain fall is from March to June, the rest of the year being dry and healthful.

The Krag-Jorgensen rifle I bought of Capt. Penny has already fixed one wild cat. There is considerable game here, but it is protected by law at this time of year.

This is a great grazing country, many thousands of cattle and sheep can be seen grazing over the vast plains of Wyoming and Dakota. The grass here is very nutritious; stock keeps fat on the range all winter if the snow does not get too deep. Horses are never fed grain here except when at regular work and often not then. The best grass is called wheat grass. When growing it resembles the Kentucky blue grass, but I am told this grass makes the finest hay in the world. Prices on cattle are about the same as in Kentucky, but horses are cheaper. Good horses, unbroken, can be bought from \$12 to 18. This country produces fine vegetables, small grains and grass of all kinds. I saw more potatoes in one farm cellar here than there are in Lincoln county. If this escapes the waste basket, when I have seen more of the country, I will write again. FRANK HOLTZCLAW.

## REPUBLICAN CONVENTION.

The republicans held a "mass" meeting in the county court room Saturday afternoon for the purpose of selecting delegates and alternates to a district convention to be held at Nicholasville on the 9th of May and State convention at Louisville, May 17. County Chairman, Hon. G. M. Davison, called the meeting to order and explained its object. Dr. R. L. Davison, seconded by J. A. Blain, named Judge W. E. Varner for permanent chairman and he was unanimously chosen. John W. Cummins was made secretary. Dr. Davison then presented the resolutions cut and dried and they were adopted. The first approves of the call for the conventions and is the one always adopted by both parties. The second names Charles Wheeler, G. M. Davison, J. S. Young, J. H. Taylor, J. M. Johnson, G. W. Gentry, Jos. Phelps, B. B. King, W. E. Varner, W. J. Edmiston, A. C. Carman, E. Schanzenbach, Craig Jackson, R. Curtis, W. K. Shugars, J. C. King, A. G. Coffey and Harrison Graham delegates. Dr. R. The 4th, McKisley's administration and the measures adopted by Congress are endorsed and the republican party congratulated that it has been instrumental in lifting the country out of the slough of despond and placing it in its present prosperous condition.

The 5th is in full as follows: Gov. W. S. Taylor and the gentlemen elected with him to the other offices of the State at the last November election deserve and have our warmest sympathy and our affectionate admiration for the courageous manner in which they have discharged their duties, under the most trying circumstances. They have been martyrs to the cause of civil liberty and have won for themselves imperishable renown. Upon us will rest the duty of acknowledging in an adequate manner at the earliest moment our appreciation of services so unflinchingly and so bravely rendered in our behalf.

The 6th demands the repeal of the "Infamous Goebel Election law" and calls upon all persons to aid in the desired end and in the election of a republican to Congress and of republican electors and thus elevate Kentucky to the position she belongs in the sisterhood of States.

Upon the motion of Judge Davison, the following were selected as the republican county executive committee, to-wit:

Stanford No. 1, G. M. Davison; No. 2, George W. Gentry; No. 3, B. G. Alford; No. 4, J. A. Chappell; Hustonville No. 1, J. H. Minks; No. 2, J. A. Blain; No. 3, A. G. Coffey; Waynesburg No. 1, Reuben Curtis; No. 2, J. H. Leach; No. 3, A. G. Faulkner; Crab Orchard No. 1, J. C. King; No. 2, Joseph Oaks.

Upon motion the convention adjourned.

## MATRIMONIAL MATTERS.

Miss Nannie Munday, one of the prettiest women in Nicholasville, and E. E. Denman, a well-known business man, surprised their friends by driving to Lexington, where they were married.

Thomas Scott and Miss Etta Moss, of Somerset, were married at Newport March 3, but kept it a secret until last week. A number of friends were invited to the bride's mother's and to this assembly was first announced the fact of the previous marriage.

Ben Hardin stole a march on his brother, Mark Hardin, and other relatives and friends here by slipping off to Monticello and marrying Miss Lillian Phillips, the INTERIOR JOURNAL's pretty correspondent at that place. His friends here have not been notified of his intentions, but it is thought they remain at Monticello, where his bride has a paying millinery business. Mrs. Hardin is the youngest daughter of Mrs. Addie Phillips, who lived here until a year ago, and is both handsome and accomplished. "Ben," as everybody calls him, is the cleverest kind of a young man and is popular with all classes. Like his brother, referred to above, he is a good business man. We congratulate him on winning so elegant a young lady for a helpmeet.

The Mallory Line steamship pier at Maiden Lane and East River, New York, was destroyed by fire. The loss is estimated at \$1,000,000. Capt. Chas. Lochs, of the barge (Sherwood), which was on fire, leaped overboard with his nine-months-old child in his arms. His wife also leaped over.

W. C. Endicott, secretary of war in Cleveland's first cabinet, was carried off by pneumonia at the age of 73.

## LANCASTER.

Henry Patterson sold a mule colt for \$70.

Rev. J. C. Massee has returned from Georgia.

The K. P. banquet has been deferred to June 8.

Mr. Fred Frisbie has returned from Louisville.

Mrs. W. S. Elkin, of Atlanta, will visit relatives here this week.

Lancaster and Paint Lick played base ball here Friday, resulting in a victory for the Lancaster boys.

Squire Myers and Allen Beasley are still using the steam plow on the turn pikes and they will soon be in first class condition.

Mr. J. W. Miller, manager of the Pilgrimage Distillery, has contributed liberally toward entertaining the Louisville Commercial Club here on May 25.

On last Thursday Mr. Berry Layton, aged 70, and Jennie Burke, 65, were married at three forks of Sugar Creek, it being the third marriage of each. Deputy Clerk O. W. Shugars reports.

Clerk J. M. Duncan is engaged in going over the proposed right-of-way for the railroad and taking agreements to deed the land. In most cases the sums asked for are very reasonable and the matter will be closed up soon, when we will know whose land will be condemned. Mr. H. Clay Sutton, within a mile of town, agreed to deed five acres of land at less than actual value and claimed no damages.

Seats are already being taken at McRoberts' drug store for Gen. John B. Gordon's lecture at the court house on the night of May 24, when the G. A. R. will be here. The veterans of both sides will be present. Capt. Herndon will receive the Confederates and Gen. Gordon will respond for them. All seats will cost 75 cents and those who do not secure them now may not be able to get them, as the house will be crowded.

A large crowd attended the contest at the opera house on Friday night to select two pupils of the Graded School to represent that institution at the Blue Grass Graded School Tournament at Winchester, in elocution. Eight delivered declamations and showed that their training has been thorough, which speaks well for Prof. Patterson and his excellent faculty. Miss Kittie Mason and Master Logan Smith were selected to go to Winchester, and we place two to one on their winning a prize.

Get your seats at McRoberts' drug store for the romantic comedy, A Kentucky Hero, to be given at the opera house on May 15, under the auspices of Garrard Lodge, No. 29, Knights of Pythias, and under the personal supervision of the veteran comedian, Harry T. Leonard, supported by 15 prominent young ladies and gentlemen of Lancaster, Miss Lillian Calef and the little dancing sunbeam, "Baby Grace." A large crowd will attend and everybody will be satisfied with the entertainment, besides having the pleasure of contributing to one of the noblest fraternal orders in existence.

Some time ago the friends of three honorable and competent gentlemen suggested them as school trustees. They asked democrats and republicans alike to support them, but as the candidates happened to be active and uncompromising democrats, the republicans began in their pharisaical way, to say that politics would get into the school if they were elected, which report was actually believed by some people. They brought out another ticket and declared that they would not lose a republican vote, and they did not. They also circulated the report that the first named board would remove Prof. Patterson, when they, like everybody else, are in favor of his remaining as principal of the school. Since they have brought politics into everything there is talk of organizing a democratic aid society here, the object of which will be to agree to deal with certain merchants and line up to meet the enemy at his own game. Political prejudice is too high.

Perhaps it was not ex-Gov. Bradley's flamboyant eloquence or his moving recital of "Martyr" Taylor's woes that made Mr. Justice Harlan weep. More likely it was the harrowing up of memories of the many unsuccessful runs for office he made in Kentucky before, "enduring" and after the wail that set his lachrymal glands aleakin'—Louisville Times.

There were 2,431 train accidents in the United States in 1899, against 2,228 in 1898. The killed numbered about 689 and the injured 2,061. This exceeds the total killed and wounded in the Philippines during the 18 months ended December 31, 1899, the excess in killed being 24 per cent. and in wounded 11 per cent.

A syndicate of Chicago capitalists secured options on 493,000 acres of timber and mineral lands in Tennessee.

# THE INTERIOR JOURNAL

STANFORD, KY., - MAY 8, 1900

W. P. WALTON.

If there was a lingering doubt in the mind of any person capable of the commonest reasoning powers that the killing of Gov. Goebel was not a political conspiracy entered into by the leaders of the republican party, but the work of an irresponsible fanatic acting on his own hook, the testimony adduced in the trial of the assassin suspects for bail, entirely removes it. That Taylor was at least aware of the intention to get Goebel out of the way, if in fact he was not an instigator of it, is also further proven. Golden reasserted that he said in discussing the subject that he was awful to think about killing men, but that seemed the only course to pursue and when asked to call out the troops, he responded "My God, you fellows do something first, I can get them out soon enough." His own private secretary, McKenzie Todd, swore that Youtsey, upon whom the crime seems proven beyond peradventure, and Taylor had many conferences, and that directly after the assassination, Taylor and George Denny began to send telegrams to various parts in the State, saying "Goebel has been shot and the war is on," bring 200 or 500 men as the case might be. J. B. Matthews, ex-assistant secretary of State, deposed that at the time he issued Taylor's pardons to Caleb Powers and John Davis, he also made out pardons for Charles Finley, W. H. Culton and Harland Whittaker. He also gave convincing testimony against Youtsey and established the fact that the assassin fired from Powers' office, to which Youtsey had been given the key. After the shot Matthews tried to get into the room, but could not open the door and going in through the transom found three rifles in it with one powder stained as if just shot. A window in the room was partly raised. It was also proven by Capt. Williamson, of the Frankfort State Guards, that his company was in readiness for duty and responded immediately on call after Goebel was shot and took charge of the executive building, with orders to stand off the police, thereby showing a preconcerted and minutely arranged plot. Another significant fact was that the Capitol square, which had for days swarmed with mountaineers, was barren of them, so as to give the assassin a clear field for his damnable work.

It was also shown by the production of messages by the telegraph company that not only Taylor and Denny, but Steve Sharp, an ex-democrat, also sent requests for men to be sent at once and that Gen. Collier had previously arranged with the militia officers at Louisville and elsewhere to be in readiness, as his dispatch "all right" to them, attests. It was also proved that Taylor before the assassination asked for a special wire to be run into his office and requested that an operator sworn to secrecy be sent to use it. Collier also had a box put in his office, saying he would have a great deal of business, showing that he knew something was going to happen. It was also shown that a part of the plot was to kill Speaker Trimble and some of the democratic judges of the court of appeals, while Willard Mitchell was also marked for slaughter. Charles Finley was again shown to be one of the conspirators and so clearly as to further prove that he acted wisely in fleeing to Indiana and seeking the protection of a governor in sympathy with the Kentucky republican method of getting rid of democrats, who assert their rights.

The connection of W. H. Culton with the crime was shown all through the examination. His attorney, W. R. Ramsey, of London, made an eloquent appeal for his admission to bail, but Judge Cantrell, after complimenting Mr. Ramsey and expressing sympathy with Culton as he is a young man with an afflicted wife, declined to grant it, saying that Culton's remark to the Louisville jailer that he "wasn't as deep in the thing as some suspected," precluded bail. He will remain in the Frankfort jail till September. The other conspirators, Caleb Powers, Youtsey, Davis, Combs and Whittaker were taken to Georgetown, where a special term has been fixed for their trials beginning July 9.

THE Louisville Times calls attention to the fact that although the railroads entering Louisville contributed \$22,000 to the Grand Army of the Republic entertainment fund in 1895, they have not so far subscribed a dollar to the Confederate Veterans' Reunion fund this year. This is absolutely mean. The G. A. R. is supported by pensions, a great deal of the money for which is wrung from the pockets of the poor Confederates, who get nothing but what they work for. The G. A. R. needs no assistance, but railroads and politicians are ever ready to give it a boost. The Confederates may need everything, but unless it be cheerfully given and without hope of reward, they would spurn the contribution of the railroads or any other corporation which bootlocks the rich and ignores the poor.

IN Friday's Courier Journal, Mr. Watterson apologizes for the levity displayed in his answer to our question, why he always adds "and not a republican" when asserting that he is a democrat, and says: "The subject as stated by our compatriot of the city of Stanford and the county of Lincoln, hath a certain poplash to it, and is fruitful of suggestion. It sets before the mind's eye in living pictures the panorama of latter day democracy." He then in sober earnestness shows how the democrats can win "even with Bryan," but whether his advice is taken or not, he will say "all right boys, we are a democrat, not a republican, and, if it is to be a straight fight this year, we will go with you if you go to hell." That's the kind of a democrat to be and the kind that leaves it entirely superfluous to add "and not a republican." Mr. Watterson thinks that the prospect of victory is sufficiently encouraging to warrant the belief among thoughtful men that with sound judgment in laying the lines and with efficient organization we can win. The people want reform, he says, and will not brook revolution. They seek the reform of the tax laws out of which the trusts spring, grow and are fostered. They seek the reform of the laws regulating labor on lines that will insure reciprocity of advantage and equal protection to the employers and the employed. They seek the reduction of the chartered companies within the strictest letter of their franchise rights. They seek the reform of the abuses that have crept into the administration of both the military and the civil service. They seek the retention of all the territory which has come to us as a consequence of the Spanish war, but its disposition upon American principles—upon democratic party lines—and they would, if they are given a fair chance, avert the threatened orgy of greed, the menaced riot of rapine, the certain gamble and scramble among the politicians and the speculators already foreshadowed by the proposed revival of the era of reconstruction, carpet-bagging redskins, with all that was detestable in Louisiana, in South Carolina and in Georgia, brought to life again and transferred to Cuba, Porto Rico and the Philippine Archipelago. To these things should the democratic leaders address their best endeavors and with the constitution in one hand, the flag in the other, a united democracy can go to the country and to the world, rejoicing that they are democrats and not republicans, Americans all, who love their country and who would save from spoliation at home at the same time that they would extend to all lands, its noble christianity and its free institutions.

AFTER fixing June 27 for a primary election to nominate a candidate for Congress in the 7th district, the democratic committee adopted a resolution excluding from participation all who did not vote the straight ticket last fall. Thereupon Col. J. R. Allen, of Fayette, withdrew, and June 27th he announced that he would not be a candidate if a primary election was decided upon. This leaves Speaker South Trimble as the only candidate and he deserves to be elected by an overwhelming vote. His valiant service to the State and to his party caused the assassination crowd to mark him for slaughter, but their plans failed and he will live to help make the republican party, already damned and dishonored, more odious.

EX-AUDITOR NORMAN testified that he heard George Denny say that Goebel would be killed and Taylor would pardon his murderer. This, coupled with the fact that he sent telegrams on the day of the assassination calling on his friends to come to Frankfort in large numbers and the further fact that Taylor did try to pardon the assassins, shows that Denny must have known whereof he affirmed. An explanation from him seems to be in order and if it is not entirely satisfactory a judicial investigation should be instituted.

THE Harrodsburg Democrat appeared Friday with J. T. Boswell editor and D. M. Hutton manager, and enclosed in a handsome cover. The salutory has the true democratic ring and it is hoped that it will be the guiding star to lead that miserably broken up county politically back to its proper bearings. Editor F. D. Spotswood in taking his exit indulges in some rather bitter reflections, but as he is not likely to sin that way again soon, he can be forgiven.

TAYLOR has struck out for Washington again as he did not feel safe in Kentucky. Indianapolis is a little out of the way to the capital, but he went to see Finley and consult with him as to what they must do to be saved. It is to be hoped that they came to the same conclusion that another evil deed did in the old times and carry it into immediate execution.

The clerk of the Franklin circuit court will neither affirm nor deny that an indictment has been found against Taylor. His answer to all queries is, "Go ask Judge Cantrell."

Congressman Dave Smith says opinion in Washington is unanimous that the supreme court will decide it has no jurisdiction in the Kentucky governorship case.

## About Conspirators and Assassins.

The lawyers employed by private subscription in Louisville to defend the persons accused of killing Gov. Goebel deserted Culton because he persisted in going on the stand and telling what he knew.

During the trial of the assassins the News will keep its readers posted, giving the fullest details. After the trial we will print photos of the assassins, the scaffold, giving their statements, what they say on their last night on earth, how they spent the last night in jail.—Georgetown News.

Stearns, editor of the Jessamine Journal, was here and arranged for the young ladies of Nicholasville to give the Woman Triumphant, or Congress of 1900, in which the men are seen in Congress, while the ladies are seen in the kitchen and nursery. It is something beyond the ordinary and it abounds in local and laughable hits. It has been successfully rendered in Nicholasville and other places. It will be at the opera house in this city, next Friday night, May 11, under the auspices of the A. O. U. W., of Nicholasville. Admission 35 cents. Children 25 cents. M. D. H.

WILS GUEST, colored, who has helped around the depot for years, died Friday afternoon after a short illness. He was a good natured darkey and stood the teasing and many practical jokes played upon him as few others would have. \*

THE Junction City Maccabees will give a mock initiation next Friday night, 11th, at their hall. Prof. E. L. Grubbs is to be one of the unfortunate candidates. All Maccabees and their friends invited to come and help pay for the hall. \*

SOME of those to whom we have sent statements time and again are going to hear something "drap" before long, if they do not liquidate in the meantime. This means you if you have treated our requests for a settlement with silence. \*

SOMERSET and Lexington parties have rented the old cold storage building from George Russell, of Junction City, and will run a bottling works, bottling soda water, ale and other soft drinks. They will also do a wholesale business in beer. \*

Myers and brother have been over there some time with their traction engine pulling the road machine and giving our friends in that county an idea or so how to work pikes. By the way, Lincoln's road machine seems to have been set aside for some reason. Any way it has not been used for a year. \*

STAVES.—Mr. J. C. Coulter, who is running a whisky barrel stove factory near Russell Springs, was in Frankfort yesterday where he disposes of his product. It is 38 miles from his factory to McKinney, his shipping point, but he finds the business fairly profitable, even with that long haul. He bought the white oak 16 inches and up, besides the hickory timber on 2,670 acres of land at a low figure. Most of the land formerly belonged to Gen. P. W. Hardin, who mortgaged it when he made the race for governor with Bradley. \*

MISSING.—Ed Wilkinson, the barber, left Sunday for New Decatur, Ala., to assist in the search for his brother, Robert Wilkinson, who has been mysteriously missing for a week or so. His wife wrote that Mr. Wilkinson told her and the children goodbye, saying that he was going to Tusculum, that State, with a view to putting in a steam laundry. Letters and telegrams to that city fail to find anybody who has seen or heard of him and she fears that he has been foully dealt with. Mr. W. was in good condition financially and in splendid health and spirits when he left. \*

SPILLMAN RIGGS, who entertained our people so delightfully in February, will visit us again on Wednesday night, 16th, when he will lecture on "The Funny Side of Life." This is said to be Mr. Riggs' best production and as he is a fine impersonator as well as an orator we may expect a treat. In addition to the lecture Mr. Riggs will render a musical program, assisted by his excellent pianist, Megibben Kimbrough, during which he will give a number of whistling solos, which can hardly be equalled. You will stand in your own light, if you miss this, the last of Beazley & Co's lecture course. \*

THE Home Insurance Co., represented by Jesse D. Wearen, has settled with Waverly Hamilton for the partial loss of his barn by fire by paying him \$729.33, which was satisfactory to Mr. Hamilton. \*

FAULKNER STEWART, one of the best known colored men in the county, died last night near Mason's Gap, aged 83. He was a great hog driver in his palmy days and made 21 round trips to the South on foot with them. \*

LEG BROKEN.—Phil Thompson, Jr., son of John B. Thompson, of Harrodsburg, was found in the old Fort Hill Cemetery unconscious, with one of his legs broken in two places. He says he has no recollection of how he got there. \*

SMALL POX AT MIDDLEBURG.—Mr. G. R. Jeter writes that Nick Taylor, a colored farm hand, is down with smallpox at Col. Harve McAninch's and that several colored children in a Negro settlement nearby are broken out. The disease is of a very light form and the citizens do not feel much uneasiness. \*

BASE BALL.—The second nine of this place was defeated 31 to 24 here Saturday afternoon by Lancaster. Hustonville beat Harrodsburg 20 to 8 at the former place. George Florence, John DeBorde and Bob Bruce assisted the Hustonville team. At Danville the same afternoon Centre College downed the Miami University team 6 to 4. \*

## LINCOLN COUNTY BOYS FIGHT-

ING.

MANILA, Mar. 17.—We arrived in

Manila November 7, 1899, and until the

last of December we had scarcely any

thing to do but drill, and do guard duty.

We are stationed on Goodlaup

Ridge, 10 miles south of Manila. From

there we were ordered to Calamba, on

Santo river. We remained there

something like a week and were re-

lieved by the 42nd Infantry and the

37th was ordered to Santa Cruz on Sa-

nta Cruz Lake. Calamba is about 35

miles south of Manila and Santa Cruz

is about 75 miles, and in the center of

the insurgents' foot hold of the south

line. We, the 37th, had never had any

engagement with the enemy until we

arrived here but I don't think there

has been a day since new year that our

regiment or some portion of it has not

been engaged.

A few days after we arrived at Santa

Cruz we learned that there were quite a

number of insurgents encamped at St.

Marie, a small town on the lake south

east of Santa Cruz and our battalion,

the third, was ordered to get ready

with 200 rounds of ammunition and one

day's ration. We went aboard the

launches that were waiting for us and

were soon on our way for the attack

on St. Marie. In front of our column

of launches steamed the Lagoon, a

gunboat that had aboard six guns,

three 3-2-10 and three 6-inch guns. It

was our first attempt to make an at-

tack and it seemed that every one was

in good spirits and anxious to fire the

first gun. When we came in sight of

the town every thing looked quiet and

no appearance of warfare whatever.

We were not able to land with our

launches, so we had about a mile of

mud and water to wade. Every man

with his rifle, 200 rounds of ammuni-

tion and his rations was making his

way to the shore in a skirmish line

march. The enemy had made their

trenches right along the shore. The

officers had discovered the trenches

with their field glasses but couldn't see

any one about them, so we continued

our march and when we got in about

700 yards of the shore they opened up

on us and we returned the fire. Their

first volley went way above our heads

and we were ordered to advance. Their

line seemed a mile long or probably

longer. The volleys came fast and the

gun boat opened fire and threw 64

shots from the rear, which soon quiet-

ed every thing and our march was

quickly completed. Not a native could

be found that was able to get away.

There were 10 killed and several

wounded and we only had three men

wounded slightly. The shells tore one

church down, wrecked several dwell-

ings and the 30th Infantry marched in

the next morning and is doing garri-

son duty there now.

This was our first engagement, but

since that time we have had seven more

pretty, stiff little fights. The people

there think the Filipinos don't want

to fight, but they give us sometimes as

much as we want and sometimes more.

Company L, our company, were out the

14th on a scout and ran into about 200

natives. They began to fire from both

sides of the road and we killed 10 and

captured some of their guns and ammu-

nition. They have some Mauser guns,

but the principal part we got were sin-

gle and double barrel shotguns.

David V. Kennedy was shot through

the hip with a slug or large ball of some

kind and has a dangerous wound,

but the doctor says he is getting along

very well. Lt. Miles was in command

and thinks Newton Wells killed the

Filipino that shot Kennedy. Wells

killed one and got his gun and noia al

right enough. We have several times

been marching along in columns of

fours and would be fired on from the

bushes, probably from 200 to 300 would

be lined up and fire on us from places

that we couldn't make any charge on

them. They have all advantage of us,

only they don't have as good guns as

we have.

The rainy season ceased here about

the 20th of November and will com-

mence again about the 20th of April,

and I feel confident that the 37th will

stay the full time and when the war

will close is unknown. I think as long

as there are Filipinos here there will

be fighting. It will be as impossible

to get the Filipinos to live under Ameri-

can laws as it was the Indian, for they

are all the same race of people. Their

religion is Catholic, but it is different

from the Catholic of America and any

one can see that they are determined.

Our commanding officer told the people

of Santa Cruz to go ahead and make

their laws and the U. S. boys would

protect them from the insurgents or

any coming enemy and they told him

they didn't want American protection,

that their feelings were with the insur-

gents; while they had not raised arms

still they favored the insurgents. And

when peace and harmony reigns here

it will be when there is no Filipino or

no American, for they both can't live

in harmony together.

P. S.—Since I commenced I have se-

ured a photograph of the insurgent

leader and doubtless some of the readers

of the INTERIOR JOURNAL have never

seen his picture and would be glad to

see it. Emilio Aguinaldo is a graduate

of the Hong Kong University and

speaks English and Spanish fluently

and regarded among his own people as

supernatural being and among Ameri-

cans as a great man.

MILLIONS GIVEN AWAY.

It is certainly gratifying to the public to know

of one concern in the land who are not afraid to be

generous to the needy and suffering. The prop-

rietors of Dr. King's New Discovery for Consumption,

Coughs and Colds, have given away over ten mil-

lion trial bottles of this great medicine and have

the satisfaction of knowing it has absolutely cured

thousands of hopeless cases. Asthma, Bronchitis,

Hoarseness and all diseases of the Throat, Chest

and Lungs are surely cured by it. Call on G. L.

Penny, Druggist, and get a free trial bottle. Reg-

ist size 50c and \$1. Every bottle guaranteed, or

price refunded.

Mrs. Potter Palmer will make herself

has already rented the old home of a

Marquis at \$4,000 a month, and is pre-

pared to give some entertainments well

calculated to open the eyes of royalty.

\$100 REWARD.

The readers of this paper will be pleased to learn

that there is at least one dreaded disease that

science has been able to cure in all its stages and

that is Catarrh. Hall's Catarrh Cure is the only

positive cure now known to the medical fraternity.

Catarrh being a constitutional disease, requires a

constitutional treatment. Hall's Catarrh Cure is

taken internally, acting directly upon the blood

and mucous surfaces of the system, thereby destroy-

ing the foundation of the disease, and giving the

patient strength by building up the constitution

and assisting nature in doing its work. The prop-

rietors have so much faith in its curative powers,

that they offer \$100 for any case that it fails to cure,

and for list of testimonials.
